A Course in Phonetics: Home

Phonetics is a notoriously technical discipline, and most books on the subject will make the beginner's head spin. Ladefoged's "A Course in Phonetics" is not one of those books. I believe this is the best introductory book to phonetics available. It's easy to read and he doesn't overload the reader with lots of technical terms.

This much improved revised edition of the book takes into account the needs of the student in the context of the present curricula followed in various universities and English language teaching institutes. This edition therefore devotes a new chapter to Assimilation, a section to Tones in relation to Attitudes, and highlights certain important aspects of pronunciation, such as rules of word accentuation.Starting with general phonetics, the book goes on to give a brief functional account of general phonology and then a selective and yet fairly exhaustive description of the phonetics and phonology of English. It also provides a number of conversational passages in phonetic script as well as in ordinary spelling for practice in reading aloud. What sets this text apart is its novelty of approach and lucidity of treatment. English pronunciation is followed as per the "Received Pronunciation of England". This text is specially designed for postgraduate students of English, undergraduate and postgraduate students of Linguistics, and for those undergoing secondary and tertiary level teachers' training programmes in English.

This textbook presupposes no knowledge of phonology or phonetics, and takes the learner step by step through the various stages and areas of the discipline without sacrificing rigor or breadth of coverage. The extraordinary clarity of explanation by the authors make this book readily understood by anyone with a keen interest in phonology.

Fully revised and expanded, the third edition of Acoustic and Auditory Phonetics maintains a balance of accessibility and scholarly rigor to provide students with a complete introduction to the physics of speech. Newly updated to reflect the latest advances in the field Features a balanced and student-friendly approach to speech, with engaging side-bars on related topics Includes suggested readings and exercises designed to review and expand upon the material in each chapter, complete with selected answers Presents a new chapter on speech perception that addresses theoretical issues as well as practical concerns

This revised second edition provides an introduction to the phonetics and phonology of English. It incorporates all central aspects of research in the phonology of English and involves the reader at every step, with over 80 exercises leading students to discover facts, to formulate general statements, and to apply concepts. Discusses the nature of speech and phonetic description, the principles of phonological analysis, the consonants and vowels of English and their possible sequences. Provides extensive treatment of rhythm, stress, and intonation and the role of these prosodic elements in discourse. Includes more than 80 exercises with feedback and glossary of technical terms. Incorporates developments in phonology since the first edition appeared.

This book has been prepared with special attention to the needs of students in Nepal at the certificate and diploma levels. It is also a basic textbook for students in India at the level of undergraduate English.

Accessible, succinct, and including numerous student-friendly features, this introductory textbook offers an exceptional foundation to the field for those who are coming to it for the first time. Provides an ideal first course book in phonology, written by a renowned phonologist Developed and tested in the classroom through years of experience and use Emphasizes analysis of phonological data, placing this in its scientific context, and explains the relevant methodology Guides students through the larger questions of what phonological patterns reveal about language Includes numerous course-friendly features, including multi-part exercises and annotated suggestions for further reading at the end of each chapter
