African-American-Views-Of-The

Background: Many scholars have written about the historical underpinnings and likely consequences of African Americans distrust in health care, yet little research has been done to understand if and how this distrust affects African Americans' current views of the trustworthiness of physicians. Objective: To better understand what trust and distrust in physicians means to African Americans.

Understanding African-Americans' Views of the ---

Although African-American historiography has broken away from explaining the past as divine providence, revising the errors, omissions, and distortions of racist white writers, celebrating the contributions of famous black men to the growth and development of the United States, depicting the endless horrors of racism and segregation, and analyzing race relations, it has until recently had a blind spot. The new African-American historiography has studied black people as agents rather than as ...

Historians and Historiography, African-American ---

African Americans collectively attain higher levels of education than immigrants to the United States. African Americans also have the highest level of Congressional representation of any minority group in the U.S. Politics. Since the mid 20th century, a large majority of African Americans support the Democratic Party.

African American Views of the Japanese reveals a page of history long ignored. In black America, Japanese were not always known for racist remarks, Sambo images, and discriminatory hiring practices. Once, thousands of African Americans thought of the Japanese as "champions of the darker races." Ordinary urban ghetto dwellers, share-croppers, and tenant farmers looked to the Land of the Rising Sun for salvation.
