The Nine Best Introductory Political Philosophy Books

...

Contemporary political philosophy (the subject, not this book) is an odd beast: simultaneously one of the most niche and unknown subjects (how many people are even aware of it?), yet also arguably the most important subject of all as the answers we choose to its questions (again, often unaware of our choices) ultimately determine how we choose to get along or not get along with each other -- of more importance than ever in the age of Trump, Brexit, and so on.

Extended guides to further reading have been added at the end of each chapter, listing the most important books and articles on each school of thought, as well as relevant journals and web sites."--BOOK JACKET.

This accessible and user-friendly text offers a broad survey of some of the fundamental philosophical questions concerning social and political relations in modern society.

Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth, both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the

problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory. Throughout, the book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

This monumental volume provides the most comprehensive and authoritative collection of the essential primary readings in post-war political philosophy.

What is the place of religion in a pluralist democracy? The continuous presence of religion in the public sphere has raised anew normative and practical issues related to the role of religion in a democratic polity, generating spirited political debates in Western and non-Western contexts. Contemporary Political Philosophy and Religion provides an advanced introduction to, and a critical appraisal of, the major schools of political thought with a focus on the relationship between democracy and religion. Key features of this book include: Analyses of different political traditions: liberalism, republicanism, deliberative democracy, feminism, postmodernism, multiculturalism, and interculturalism; Critical discussions of key contemporary philosophers, such as John Rawls, Jürgen Habermas, Richard Rorty, Charles Taylor, Susan Moller Okin, Martha Nussbaum, Will Kymlicka, Chandran Kukathas, and Bhiku Parekh; A pluralist approach that questions the strict divide

between analytical and continental political philosophy; Discussion on the place of religion in politics from multiple perspectives by drawing on a plurality of political contexts, both Western and non-Western; Analyses of legal and political cases related to different religious traditions, for example, Islam, Confucianism, Buddhism, Christianity, and Hinduism. This comprehensive text will be of great use to students of religion and politics in the fields of political and legal theory, and religious and theological studies, while also offering critical insights and arguments that will be of interest to the experts in the field.

What is multiculturalism and what are the different theories used to justify it? Are multicultural policies a threat to liberty and equality? Can liberal democracies accommodate minority groups without sacrificing peace and stability? In this clear introduction to the subject, Michael Murphy explores these questions and critically assesses multiculturalism from the standpoint of political philosophy and political practice. The book explores the origins and contemporary usage of the concept of multiculturalism in the context of debates about citizenship, egalitarian justice and conflicts between individual and collective rights. The ideas of some of the most influential champions and critics of multiculturalism, including Will Kymlicka, Chandran Kukathas, Susan Okin and Brian Barry, are also clearly explained and evaluated. Key themes include the tension between multiculturalism and gender equality, cultural relativism and the limits of liberal toleration, and the impact of multicultural policies on

social cohesion ethnic conflict. Murphy also surveys the legal practices and policies enacted to accommodate multiculturalism, drawing on examples from the Americas, Australasia, Europe, Asia and the Middle East. Multiculturalism: A Critical Introduction is an ideal starting point for anyone coming to the topic for the first time as well as those already familiar with some of the key issues.

This is the first book to be published in this exciting new series on political philosophy. Cunningham provides a critical and clear introduction to the main contemporary approaches to democracy: participatory democracy, classic and radical pluralism, deliberative democracy, catallaxy, and others. Also discussed are theorists in the background of current democratic thought, such as Tocqueville, Mill, and Rousseau. The book includes applications of democratic theories including an extended discussion of democracy and globalisation.

We take rights to be fundamental to everyday life. Rights are also controversial and hotly debated both in theory and practice. Where do rights come from? Are they invented or discovered? What sort of rights are there and who is entitled to them? In this comprehensive introduction, Tom Campbell introduces and critically examines the key philosophical debates about rights. The first part of the book covers historical and contemporary theories of rights, including the origin and variety of rights and standard justifications of them. He considers challenges to rights from philosophers such as Bentham, Burke and Marx. He also examines different

Download Free Contemporary Political Philosophy An Introduction

theories of rights, such as natural law, social contract, utilitarian and communitarian theories of rights and the philosophers and political theorists associated with them, such as John Stuart Mill, John Rawls, Robert Nozick and Michael Sandel. The second part of the book explores the role of rights-promoting institutions and critically assesses legal rights and international human rights, including the United Nations. The final part of the book examines how philosophies of rights can be applied to freedom of speech, issues of social welfare and the question of self-determination for certain groups or peoples. Rights: A Critical Introduction is essential reading for anyone new to the subject of rights and any student of political philosophy, politics and law.

Political obligation is concerned with the clash between the individual's claim to self-governance and the right of the state to claim obedience. It is a central and ancient problem in political philosophy. In this authoritative introduction, Dudley Knowles frames the problem of obligation in terms of the duties citizens have to the state and each other. Drawing on a wide range of key works in political philosophy, from Thomas Hobbes, John Locke, David Hume and G. W. F. Hegel to John Rawls, A. John Simmons, Joseph Raz and Ronald Dworkin, Political Obligation: A Critical Introduction is an ideal starting point for those coming to the topic for the first time, as well as being an original and distinctive contribution to the literature. Knowles distinguishes the philosophical problem of obligation - which types of argument may successfully ground the legitimacy of the state and the duties of citizens - from the political problem of obligation -

whether successful arguments apply to the actual citizens of particular states. Against the anarchist and modern skeptics, Knowles claims that a plurality of arguments promise success when carefully formulated and defended, and discusses in turn ancient and modern theories of social contract and consent, fairness and gratitude, utilitarianism, justice and a Samaritan duty of care for others. Against modern communitarians, he defends a distinctive liberalism: 'the state proposes, the citizen disposes'.

Engaging Political Philosophy introduces readers to the central problems of political philosophy. Presuming no prior work in the area, the book explores the fundamental philosophical questions regarding freedom, authority, justice, and democracy. More than a survey of the central figures and texts, Engaging Political Philosophy takes readers on a philosophical exploration of the core of the field, directly examining the arguments and concepts that drive the contemporary debates. Thus the fundamental issues of political philosophy are encountered first-hand, rather than through intermediary summaries of the major texts and theories. As a result, readers are introduced to political philosophy by doing philosophy. Written in a conversational style, Engaging Political Philosophy is accessible to students and general readers. Instructors can use it in the classroom as a stand-alone textbook, a complement to a standard collection of historical readings, or as a primer to be studied in preparation for contemporary readings.
