Few relationships are as commonly seen in art as the one between mother and child — motherhood has been canonised, elevated and idealised over centuries. As the art world (and the world around us) has modernised the depiction of women, both painted and real, has changed with it. Women have emerged as artists in their own right, and the idea of a multifaceted rather than binary identity — that you can be both woman and a mother without one subsuming the other — has thankfully become ...

Ten works of art celebrating motherhood | Art UK

Born in England to a British father and Irish mother, Carrington painted this painting as an expat in Mexico in the late 1940s, and you could trace the monumentality of the main figure back to the Mexican muralists. Others see the influence of Celtic mythology in particular symbols like her geese.

Egyptian-figure-vase New Kingdom, mid-Dynasty 18 1435-1380 B.C. I am featuring Lindy Lawler first up in this article because her ceramic art has recently been inclined toward a mother/goddess orientation and the act of honoring the feminine principle that pervades most ancient cultures. Lindy Lawler uses the matriarchal dynamic, ancient teachings, traditions and philosophies to explore various artistic interpretations of the mother in her clay sculptures and imbibes them with her subtle ...
