Content and Language Integrated Learning (CLIL) is an innovative approach referring to educational settings where a language different from the learners' mother tongue is used as a medium of instruction. This other language is found to be used from kindergarten to the tertiary level, and the extent of its use may range from occasional foreign language texts in individual subjects to covering the whole curriculum. The changes in the technological, economic and social realities of the modern world have led, and still lead, to more frequent contact between people of different linguistic and cultural backgrounds. Globalisation has made the world interconnected; the world is rapidly becoming a mixed global village where the role of languages is extremely important. In such an integrated world, integrated learning is viewed as a modern form of educational delivery. CLIL represents an increasingly popular approach to language teaching and learning not only in Europe, but also in other countries such as Japan, Malaysia, China, and the United Arab Emirates. Even though CLIL is not of a uniform nature and varies across the world, one of the main arguments for its introduction is that it creates conditions for naturalistic language learning. This book represents selected presentations given at the Ustro CLIL 2013 conference, which brought together academicians, researchers, teachers and educational authorities from all over the world, and provided them with the opportunity to exchange an interdisciplinary dialogue on CLIL methodologies, as well as the purely practical consequences of implementing such pedagogies in institutional educational practices at the primary, secondary or tertiary level. As such, collection embraces original contributions across a range of areas of CLIL.

Using an inquiry-based approach to learning, Oxford Discover develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends? Where can we see colors? How can we make music? Oxford Discover uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with Show and Tell as part of 9-level course.

Sam The Junior Herbalist is a children's herbal adventure book about an amazing ten-year-old boy who lives in Baltimore, Maryland. Sam is an urban herbalist and environmentalist. He is passionate about plant conservation and helping his community. In each book, children learn about different plants, exciting herbs and even prepare the same herbal remedy Sam makes. In Book 2, The Case Of The Icky Itches, Sam is on another mission to help his best friend, Austin. Sam enlists the help of his Nana Sage to get the remedy he needs.

Stories for Young Readers, Book 2, by Kinney Brothers Publishing, is a series of ESL readings that includes questions, grammatical explanations, exercises, and puzzles for beginning students. This textbook presents English in clear, grammatically simple, and direct language. Teachers can utilize the stories and exercises in a variety of ways, including listening comprehension, reading, writing, and conversation. Most importantly, the textbook has been designed to extend students' skills and interest in developing their ability to communicate in English.
