Apple HomePod review | TechRadar

That Apple does things in its own sweet time is no new discovery. But even by its own standards, the company arrived late to the wireless speaker party. But being late is perfectly acceptable if you're the life and soul when you arrive - and that's pretty much the story with the HomePod.

Apple HomePod review | What Hi-Fi?

Technically the best-sounding smart speaker, the Apple HomePod is a compact marvel that automatically adjusts its sound based on

location. Both help you take care of everyday tasks with Siri, control your smart home, set up multiroom audio, and send Intercom messages to every room. HomePod and HomePod mini keep everything private and secure, and only listen for “Hey Siri.”

HomePod - Apple

The HomePod is Apple 's take on the smart speaker. The design is very Apple, so is the entire thinking around the product. It has a stunted cylindrical look and is much smaller than the Echo Studio which it will compete with in the Indian market. The fabric finish is

Read Online What Is Apple Homepod Review Of The

soft and the speaker has a slight cushiony feel when you hold it.

Apple HomePod review: Listen to what you love, the way you ...

One of the great things about the HomePod is the fact that Apple keeps regularly updating the software and adding new features. As a result Apple's smart speaker has a lot more going for it than it...
